

JENSEN Academy

In-person Technical Training

JENSEN Academy

In-person Technical Training

Knowledge is power

With the right knowledge and experience, your maintenance team can ensure that your JENSEN equipment always stays available for production. After all, maximizing the potential production time of your machines is key to maximizing your profitability.

In-person Technical Trainings

Our in-person technical trainings offer a thorough exploration of JENSEN technology in a smaller and more interactive classroom environment. Unlike a webinar, which could have as many as one hundred attendees, our in-person trainings typically have between six to twelve attendees. For engineers looking for more personalized and interactive training, our hands-on technical trainings are priceless.

Location

JENSEN USA
99 Aberdeen Loop
Panama City, FL 32405

Cost

Varies per class, includes

- Training class,
- Training materials on USB stick,
- Lunch & refreshments during break

Registration

customer-admin-JEUS@jensen-group.com

+1 850 248 4108

The JENSEN Academy looks forward
to meeting.

JENSEN Academy

In-person Technical Training
Flatwork Technology

Flatwork Finishing Technology

Instructor: Byl Parker

- Introductions
- General Presentation
- B & R Presentation
- Meet the Parts Team
- Folder Presentation
- Field Trip! (Tentative)
- Feeder Presentation
- Factory Tour (Tentative)
- Ironer Presentation
- EL Drawings
- Safety Circuit Presentation
- Butterfly Towel Folder Presentation
- Flex Time – Presentation Follow-up
- Field Trip! (Tentative)

JENSEN Academy

In-person Technical Training
Large batch washer/dryer

L-Tron and DTX

Instructor: John Stinson

L-Tron with the Softrol Control System.

- Shipping and Safety
- Mechanical presentation
 - Machine hydraulics, Pivot Assembly, Bearings and Tub Seals, Machine Pneumatics, Machine Lubrication
- Control cabinet Overview
- Front Panel Display and Screen navigation
- Power Cabinet
- Door Locks and Switches
- Reed Switches / Prox. Switches and Sensors
- Electrical Systems

DTX Dryer

- Introduction to the DTX Dryer
- Safety
- Machine components:
 - Mechanical / Pneumatic Components
 - Hi Limit temperature Controller / Fire control System.
 - Burner control unit / UV sensor
 - Softrol Control Components and Control Panel navigation
- Maintenance
- Machine Troubleshooting

JENSEN Academy

In-person Technical Training
Standalone Washer/Dryers

JWE/JTD Standalone Washers and Dryers

Instructor: Jason Hall

JWE JENSEN Washer Extractor

- Sizes and Models
- Display and control panel
- Shipping Bracket removal
- Additional installation guidance
- Panel log-in instructions/ Passcode
- Operation and program execution
- E-Stop location
- Maintenance Schedules
- Electrical cabinet component Identification

JTD JENSEN Tumbling Dryer

- Sizes and Models
- Display / Control Panel
- E-Stop location
- Principles of Program Execution
- Program Set-up
- Burner Types and numbers
- Maintenance schedules
- Electrical cabinet component Identification

JENSEN Academy

In-person Technical Training
Washroom Technology

JENSEN Washroom Technology

Instructor: Daniel Friedmann

- Introduction to the UniQ Tunnel Washer System
- Tunnel Video
- Presentation
- Manual (with focus on chapters below)
 - Maintenance – Troubleshooting - Parts List – Flow Diagram
- Wiring Schematics
 - Finding the correct IOs
 - Spare parts list
- TRISAFE Introduction + Presentation
- LaundryVision Explanation/Discussion
- Troubleshooting Tips
- Introduction to the Water Extraction System
- Presentation
- Manual (with focus on chapters below)
 - Maintenance – Troubleshooting - Parts List – Hydraulic Schematics
- Wiring Schematics
 - Finding the correct IOs
 - Spare parts list
- LaundryVision Explanation/Discussion
- Troubleshooting Tips
- Introduction to the Compound Control System
- Wiring Schematics
 - Finding the correct IOs
 - Spare parts list
- Troubleshooting Tips

JENSEN Academy

In-person Technical Training
Washroom Technology

JENSEN Washroom Technology (continued)

Instructor: Daniel Friedmann

- Introduction to Transfer Dryers
- DT Video
- Presentation
- New XR Dryer – Introduction Video
- Manual (with focus on chapters below)
 - Maintenance – Troubleshooting - Parts List
- Wiring Schematics
 - Finding the correct IOs
 - Spare parts list
- LaundryVision Explanation/Discussion (including CC)
- Troubleshooting Tips

JENSEN Academy

In-person Technical Training
Material Handling Technology

JENSEN Futurail Monorail System

Instructor: Waseem Shaaban

- Futurail System overview
 - Rail Explorer advanced user features
 - Schematics
 - Troubleshooting demo
 - Q&A
 - Spares and Service overview
- The Anatomy of a Futurail Control System
 - SQL Database Server
 - Rail Explorer user interface
 - PLC controls
 - CPU, X20 & X67 IO, Powerlink
 - HMI
- Electrical Cabinet Components
 - Safety relays
 - VFDs
 - Ethernet Network

JENSEN Academy

In-person Technical Training
Garment Technology

JENSEN Metricon Garment Technology

Instructor: Jack Bryant

- General Overview Operation
 - Start UP
 - Shut Down
 - Air Pressure
 - A-sort
 - I/O page
- Trouble Shooting
 - Statistics
 - Alarms
 - Crash recovery
- Maintenance
 - PM schedule
 - Cleaning
 - Lubrication
